

AESTHETIC AND COSMETIC DERMATOLOGY (LASERS SEPARATE CATEGORY)

FILLER RHINOPLASTY

Davi de Lacerda⁽¹⁾

Clinica Médica Dr. Davi de Lacerda, Dermatology, São Paulo, Brazil⁽¹⁾

The nose is a central cosmetic unit of the face. Filler Rhinoplasty is a minimally invasive approach to improve nasal/facial appearance, but not risk free. This lecture will address fundamental concepts about filler-based cosmetic filler improvement of the nasal area. It will present a short history of fillers used for the nose, present current techniques, discuss risks, and offer tips for proper selection of patients and improved safety.
